

CERTIFICATE 2026

- *Climate Protection Achievement: Emission Reduction* -

for the

HELLER-LEDER GmbH & Co. KG

By joining in 2026, the company **HELLER-LEDER GmbH & Co. KG** commits, based on the year 2026, to implementing a binding reduction pathway.

The goal is to consistently reduce the greenhouse gas emissions caused during the period from 2026 to 2036 and to lower them to a level where only unavoidable residual emissions remain. These are compensated accordingly.

The implementation is carried out based on clearly defined interim targets and follows recognized standards. Membership represents responsible action, transparency, and active participation in achieving sustainable climate goals.

The accounting is carried out in accordance with the guidelines of the „Greenhouse Gas Protocol.“ Scope 1 and Scope 2 are included in the accounting.

Hameln, 12th June 2026

Anja Lippmann-Krüger
Managing Director
Klimaschutzagentur Weserbergland gGmbH
